EDUCATION

Delhi Technical Campus, GGSIPU

Bachelor of Technology – Computer science and Engineering

New Delhi, India

October 2024 – present

SKILLS

Languages :- TypeScript, JavaScript, Python.

Web Development:- Nest.js, Django, React.js, Next.js, Flask.

Database Management:- MongoDB, PostgreSQL, MySQL

Dev Tools:- Git, Github, Postman

WORK EXPERIENCE

Full Stack Developer - Intern

Scitech Industries

Aug 2025– Oct 2025

New Delhi, Delhi

- Worked as a Software Development Engineer (SDE), contributing to both backend and frontend development.
- Built and optimized RESTful APIs using NestJS (TypeScript), improving response efficiency by **25%**.
- Developed a scalable work order dashboard (Notion-like), boosting task tracking efficiency.
- Created responsive UIs using Next.js (TypeScript) and Chakra UI, integrating backend APIs seamlessly.
- Improved page load performance by **20%** using server-side rendering (getServerSideProps).
- Maintained a clean, modular codebase, increasing development speed and reducing maintenance effort by **15%**.

PROJECTS

Harit support | Next.js, Typescript, supabase

Tarunsingh064/harit-support

- Harit Support is a multilingual platform that helps farmers adopt modern farming technologies through an intelligent chatbot and real-time SOS support.
- It offers crop disease detection, enabling early identification and timely solutions for better crop health.
- The platform includes a farmer portal to buy/sell tools, share reviews, and access essential farming resources in one place.

Campus connect | Next.js, javascript, Django, sqlite

Tarunsingh064/campusconnectsfrontend

- CampusConnect is a digital platform that connects students within a campus community.
- It enables users to **share posts, connect with peers, and showcase portfolios**.
- With features like **authentication, profiles, and interactive feeds**, it fosters collaboration, communication, and growth.

ACHIEVEMENTS

- Won hackagra hackathon 2025 (1st place)
- Won manthan kriti 2025 (inter college)
